Ali Raza

Shopify & Full-Stack Developer

SUMMARY

Developer with 8 years of shipping production code for D2C brands. I build Shopify Plus stores, Shopify apps, Next.js products, AI-powered features, macOS apps and browser extensions, and I measure the work by conversion, speed and revenue. **4.9/5 on Upwork from 175 reviews** across 235 jobs and 1,600+ hours; 500+ Shopify stores worked on; two apps live on the Shopify App Store.

EXPERIENCE

Integration Manager

Present

L-Nutra, Inc.

- Build and run the e-commerce integrations that connect **Shopify, NetSuite and FarApp**.

Founder & Developer

2018 – Present

ConversionsKing · Dubai, UAE

- Built **MoxieLash** from scratch on a custom Shopify Plus theme and scaled a brand-new product category to an **8-figure DTC business**.
- Revamped the **ProLon** storefront: rebuilt the conversion path, the subscription flow and front-end performance.
- Designed and built the **L-Nutra Health** digital flagship, and a custom patient meal-delivery portal with dietary logic for **Nutrition for Longevity**.
- Restructured the funnel and ran an iterative **A/B testing program** for Motive Health, an FDA-cleared medical device.
- Built a custom cake configurator with in-cart fulfillment rules for **Freedom Bakery**; delivered speed rebuilds and redesigns for FriendshipCollar, Moxie and OutcomeMD.
- Built and published Shopify apps (cart, upsells, product-page blocks) used by merchants on the Shopify App Store.
- Lead a distributed senior team across the GCC, South Asia and Europe.

Senior Web Developer · Freelance

2017 – Present

Infinity Creatives LLC · Upwork — 235 jobs, 1,600+ hours, 4.9/5 (175 reviews)

- Built a custom **Shopify app** that lets shoppers choose pick-up, local delivery or shipping, and supported the client for almost four years (2019–2023, 5.0★): *“Ali is very good at his craft and was able to accomplish what we wanted to do.”*
- Built **Auto Disc Pro**, a Shopify app that discounts products automatically (2020–2021).
- Built a Shopify point-of-sale MVP app for **Discount Trade For Share** (2017–2019) and a product-walkthrough app for a custom Shopify theme (2018–2019).
- Built Shopify app UI in **React and Polaris** alongside a client’s lead developer (2018–2019, 5.0★).
- Delivered custom theme work, variant and collection logic, front-end builds and WordPress / WooCommerce sites for clients worldwide.

PRODUCTS

King Cart — Cart & Upsell

`Shopify App Store`

Slide-out cart with upsells, free-gift perks, AI product suggestions and progress bars.

Reels Grabber

`macOS · SwiftUI`

Bulk backup of Instagram and Facebook reels with quality picker and date filters.

Superar

`Browser extension`

Custom shortcuts, JavaScript and CSS on any site. Privacy-first, no backend.

Product Blocks

`Shopify App Store`

Online Store 2.0 blocks for trust badges, reviews and countdowns. No code needed.

WA Translator

`Chrome extension`

Inline, on-device translation of WhatsApp Web messages.
